Date of birth	1988-06-25		
Facebook	https://www.facebook.com/rimi.alfarwan		

Rimi is a results-oriented full stack web developer with 5+ years experience developing, testing, and maintaining enterprise software applications. I design and develop advanced applications from use cases and functional requirements within an agile team. I always expose myself to new technologies to make sure that the company I work for remains the leader in setting industry standards throughout the years. What makes me impressive is that I believe in myself. I believe that doing things is the best strategy to establish and sustain the links between learning and knowledge.

Experience
